2. We feel that the survey has resulted in the installation of an active and effective Records Management Program for the Division. This accomplishment can be credited largely to the wholehearted cooperation and support which was given the Records Analysts by all personnel of the Division, and which made it possible to get agreement on recommended changes and assistance in installing them, as the survey progressed.

3. As tentatively agreed in a recent discussion of the survey between you and [REDACTED] of this office, Mr. [REDACTED] will make periodic inspections on the status of the program and report to you any conditions which he feels require attention. As time permits he will also assist in the end of the year records retirement operations, and review the Records Control Schedule for changes which may appear necessary at that time.

4. We feel that the present status of your records is such that we can point to them as a model for other offices of the Agency, and I want to thank you and your people for the cooperation and assistance which made this possible.
